

*HOLZKRAFT- QUALITY AT A GOOD PRICE!*

## Discover **YOUR** new Holzskraft firewood catalogue

### Dear customers,

Like many other users, you can also trust the HOLZKRAFT brand for wood splitters and firewood circular saws.

Decades of experience combined with the wishes of our customers form the basis for modern, safe and, above all, efficient machines.

HOLZKRAFT machines are used by professionals in agriculture and forestry as well as by private users.

A nationwide network of specialist dealers and sales partners is on hand to provide you with help and advice. You buy your machine from your trusted local dealer. This means greater security when making a purchase for you, as well as expert advice and optimal service.

HOLZKRAFT machines stand for quality, reliability and a long service life.

The complete range of Holzskraft machines with all technical data, innovations and information can also be found on the Internet at [www.holzskraft.de](http://www.holzskraft.de).

*Sales and service in Hallstadt / Bamberg / Germany*

**'When you choose STÜRMER brand-name products, you can be sure that you're making the right purchasing decision.'**

By comparing prices of truly equivalent and comparable products, you can be sure that STÜRMER brand products stand up to any comparison in terms of ease of use, features, quality, technology and value for money. Purchasing a STÜRMER brand product is the right decision for you.

STÜRMER customers can rest assured that their machine will retain its value for years to come thanks to expert advice prior to purchase, after-sales service and a reliable supply of spare parts after purchase.

## Study and try out The STÜRMER demonstration and training centre

In our demonstration centre at our main site in Hallstadt, near Bamberg, you can experience many of our highlights live on approx. 2000 m<sup>2</sup>. Four specialist advisors are at your disposal with their specialised knowledge.

You can expect

- ▶ approx. 2000 m<sup>2</sup> of training and exhibition space
- ▶ 150 machines permanently ready for you to demonstrate
- ▶ An excerpt of the most important machines from each division of our product portfolio

STÜRMER also offers product training courses for its trade partners at the company's site in Hallstadt.

In the specially equipped training and demonstration rooms, specialist dealers are provided with important specialist knowledge about STÜRMER products and the differences to competitor products.

Many machines are presented, demonstrated and explained in the exhibition. Practical training is therefore guaranteed.

Up to 60 people can be brought along to in-house meetings, discussions and training sessions.

The company's own bistro for a cosy end to meetings, discussions and training sessions.

# SLD STÜRMER logistics centre

## SLD - Stürmer Logistics Services These figures speak for themselves

The new logistics centre began operating at the start of April 2014. The new logistics centre, which boasts 20,000 m<sup>2</sup> of floor space, has been constructed on the company's 50,000 m<sup>2</sup> premises in Pettstadt, near Bamberg (15 km from the head office). This is another significant milestone in the STÜRMER Group's history.

The stated goal was to improve the quality of delivery in every respect, thereby offering our highly valued business partners a significant increase in benefits.

### Our goals are your advantages!

More than 500000 items are available in our logistics centre. This enables prompt despatch of almost all items throughout Germany and Europe. Qualified employees ensure the proper delivery of the goods. Every year, over 100000 shipments leave the company premises via freight forwarders or parcel services.

- 20000 pallet spaces
- 2500 shelf spaces for small parts
- 22000 m<sup>2</sup> storage space
- approx. 2000 m<sup>2</sup> accessories storage area
- 45 employees and trainees
- approx. 10500 shipments per month
- approx. 23 million euros in stock available at all times
- approx. 50000 m<sup>2</sup> floor space

### Over 500000 items ready for delivery:

- approx. 21000 machines
- approx. 235000 accessory items
- approx. 250000 spare parts

(as at 31.12.2022)

### Key success factors

- > Fast availability thanks to high storage capacity
- > Fast loading and throughput times thanks to storage location management and route optimisation
- > Reliable quality thanks to scanning process
- > Massive increase in permeability in the outgoing goods process

Stored woodworking machines

22000 m<sup>2</sup> storage space

We are all working towards one goal: That you and your customers are satisfied!

- Minimal delivery times
- Zero Error
- Inventory security
- Customer loyalty RDT/NVE

# Vertical firewood splitters

## HSE 5-520 KH - Horizontal firewood splitter

With electric motor for demanding users

- ▶ Closed and safe gap area for greater safety thanks to legally prescribed splitter protection device
- ▶ Easy to transport thanks to transport handles and trolley
- ▶ Can also be used on a workbench thanks to its horizontal design – ideal for longer periods of fatigue-free working
- ▶ Small footprint
- ▶ Easy-to-operate two-hand safety switch for maximum user safety
- ▶ Sturdy, torsion-resistant steel construction

Model	HSE 5-520 KH	
Art. No.	5981005	
<b>Technical data</b>		
Splitting force max.	t	5
Cylinder stroke max.	mm	375
Split length max.	mm	520
Maximum diameter of split material	mm	250
Forward speed	cm/s	3.7
Return speed	cm/s	6.2
Drive	Electric motor	
Motor power	kW	2.2
Electrical connection ~50 Hz	V	230
Dimensions (L x W x H) approx.	mm	1160 x 425 x 610
Weight approx.	kg	50

## HSE series - log splitters for demanding users with a splitting force of up to 30 tonnes.

With electric motor, PTO or combined PTO / electric drive

- ▶ Vertical version for splitting short and metre-long timber
- ▶ Robust and solid construction
- ▶ Impact and scratch-resistant thanks to high-quality powder coating
- ▶ Quick, tool-free splitting height adjustment
- ▶ Low base plate for easy, fatigue-free loading of large logs
- ▶ Phase inverter for all 400 V models
- ▶ Convenient transport thanks to standard chassis with large rubber wheels
- ▶ Space-saving storage thanks to easily lowerable cylinder
- ▶ Powerful industrial hydraulic system
- ▶ Two-hand safety circuit
- ▶ With splitting material holder

# Conveyor belt

## FB 4500 – Conveyor belt for time-saving transport of fire-wood immediately after cutting

 Made in Germany

- ▶ Variable height adjustment to the loading height of different means of transport
- ▶ Tilt adjustment from 5° to 45° via cable winch with large handwheel
- ▶ Easy and safe folding and unfolding via cable winch and wheel support
- ▶ Quick and easy assembly and dismantling. Can also be carried out by a single person

Illustration shows conveyor belt FB 4500 with rocker saw HWS 701

- › Conveying length 4.50 m
- › Lifting height up to 3.50 m, steplessly adjustable
- › Can be operated, assembled and dismantled by one person
